HOW TO ORDER REPAIR PARTS

The following information must be furnished when ordering replacement parts:

1. Model Name and Series Number (R-100, R-101)
2. Serial Number
3. Number and Name of Parts

MINIMUM ORDER $1.00

Unless advance payment is made, a minimum charge of $1.00 is made on all orders where the normal cost would be less than $1.00. Please note also the following paragraph.

PAYMENT

All parts shipments will be made by Parcel Post C.O.D. unless advance remittance is made. PLEASE DO NOT SEND CASH OR STAMPS. Checks, Money Orders, or Drafts are acceptable and will save you C.O.D. charges.

FACTORY SERVICE

If parts are to be fitted at the factory, send revolver marked for the attention of our SERVICE DEPARTMENT, furnishing complete and specific repair instructions. A cost estimate of the parts and labor charges will be immediately sent for your approval before work is started.

Unless a flat rate charge is specified, a MINIMUM of $4.50 will be charged on servicing revolver at the factory.

REVOLVER SHIPPING INSTRUCTIONS

BONAFIDE DEALERS IN FIREARMS are permitted by postal regulations to send revolvers to the factory by Parcel Post. INDIVIDUALS are not permitted to mail firearms and we recommend shipment by railway express.

All shipments to factory must be prepaid.

INSTRUCTIONS FOR OPERATION AND CARE OF YOUR "SENTINEL" REVOLVER

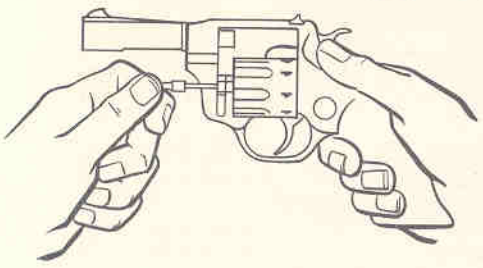

Fig. 1

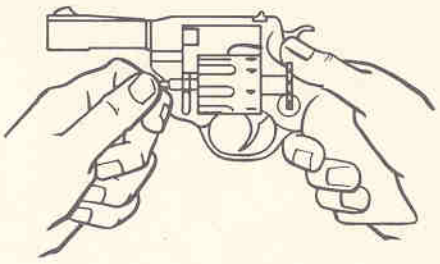

Fig. 2

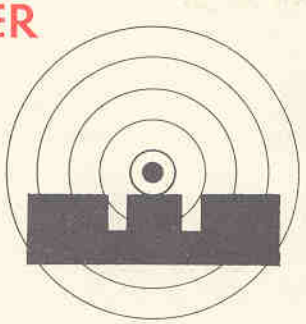

Correct Sighting

LOADING AND FIRING:

1. Be sure that hammer is down.
2. Pull ejector rod forward and, at the same time, swing out cylinder to left by pressing right index finger against it (see Figure 1).
3. Insert one .22 caliber short, long or long rifle cartridge in each of the nine chambers of the cylinder.
4. Swing cylinder shut and revolver is ready to fire.
5. Revolver may be fired double action merely by squeezing trigger for each shot.
6. Target shooting, or other shooting demanding a maximum of accuracy, is usually done single action. For single-action shooting, pull back hammer to cocked position for each shot.
7. To unload revolver or remove fired cartridge cases, pull ejector rod forward, swing out cylinder to left (see Figure 1), and push ejector rod to rear (See Figure 2).
8. Pull ejector rod forward before reloading or attempting to close cylinder.

SIGHT ADJUSTMENT:

Sentinel revolvers are sighted in at a range of 50 feet. If lateral adjustment is desired because of individual preference in sighting or holding, tap the rear sight gently, using a brass or plastic hammer. Move the rear sight in the direction you want the point of impact to move.
